Skills

- HTML5
- JavaScript
- React js
- Express js
- CSS
- Bootstrap5
- Node js
- Mongo DB

Profile Summary

- Enthusiastic Full Stack Developer with proficiency in the MERN stack (MongoDB, Express.js, React.js, Node.js). Strong foundation in developing dynamic web applications. Eager to contribute to a collaborative team while enhancing technical skills. Recently graduated and ready to apply knowledge in real-world projects.

Projects

Disney Plus Hotstar (Clone) | HTML , Css , JavaScript

Feb 2023

- Developed a responsive Disney+ Hotstar clone UI using HTML, CSS, and JavaScript, replicating the platform's design and user interface. Implemented interactive features like video carousels and navigation menus to enhance user experience.

Technical Skills | HTML , Css , JavaScript

- Developed Disney+ Hotstar Clone UI: Built a user interface for a Disney+ Hotstar clone using HTML, CSS, and JavaScript, replicating its modern design and layout.
- Responsive and Mobile-Friendly Design: Ensured the application is fully responsive, providing a consistent experience across desktops, tablets, and mobile devices.
- Interactive Features: Implemented functional elements like navigation menus, video carousels, and hover effects to enhance user interaction.
- Showcased Front-End Expertise: Demonstrated proficiency in front-end technologies by delivering a polished and visually appealing project.

Technical Skills
